MatrixMini[®] Audio and Video Cables for the Portable Lifestyle Generation

Ontario, California • 9/8/2009 • Ultralink/XLO Products, Inc., an innovative and prolific manufacturer of award-winning audio and video interconnects, cables and AC power products pulls the covers off the ultra hip MatrixMini[®] cable line.

MatrixMini cables are the result of and a showcase for all that Ultralink/XLO[®] has learned over the years manufacturing cables. They're in hip, attractive colors, small in size but huge in value and performance. Dynamic, colorful, vivid and exciting sound with tight bass and smoothly musical highs that won't shear your ears off!

Even the most inexperienced listener gets that big smile on their face; everyone knows it when they hear it. MatrixMini breaks the hold of threadbare sound produced by most (very) ordinary cables. Resistance is futile!

As always Ultralink/XLO makes our cables with the same engineering and attention to build quality that we lavish on our Argentum and XLO brands, using unique, carefully-constructed connectors, high-purity Laboratory-Grade copper conductors, low-capacitance dielectrics, and advanced shielding for amazing HD video and rock-on audio!

MatrixMini have top-quality engineering, a ton of technology in each cable, prices guaranteed to please, the same quality feel as Argentum and XLO, plus exciting, vivid sound. Hip, appealing, easy to use, MatrixMini cables practically scream Bring Me Home Now!

The MatrixMini Line Consists of the Following Cables

Interconnects, a powered subwoofer cable, precision 14 AWG twisted-pair speaker cable,

precision 16 AWG twisted-pair speaker cable, RCA male and female audio Y-adapters, digital coax, fiber optic, and HDMI™ cables, an audio/video kit, a camcorder to stereo audio/video cable, stereo 3.5mm mini plug to stereo RCA “Y” cable, stereo 3.5mm mini plug cable, stereo mini headphone “Y” splitter cable, stereo mini headphone extension cable, component video, s-video, composite video, and F-pin RF video connectors.
